Feedback #4: Excel Project 5, Using Excel as a Database

We did Excel, Project 5 in class, including procedures for sending the workbook via email. Please submit the *completed* project as Feedback #4 via email. The message body must include a brief synopsis of the project (what's it all about), comments regarding what you like/dislike about using Excel as a database application, and your personal comments regarding going through the project (hard, easy, confusing, etc.)

NOTES

- Feedbacks are not graded. Each feedback represents 25% of your total Feedbacks grade. Submitting the four feedbacks is all that is needed to get 100% for this requirement.
- In order for a Feedback to be accepted for credit, it must be completed as requested.
- The instructor reserves the right to change the Feedback #4 requirements based on how far the class gets through the text book.
